Flowers and Birds

1. Draw and label a native flower.
2. Choose one of the birds associated with the native flower and draw and label the bird. Think about the phenology of your chosen bird and your chosen plant.
3. Use a digital drawing program like "Paint" or draw by hand, take a photo and attach.

Flower: _____

Bird: _____

1. What are the requirements of your chosen plant (sun/shade/water/space etc)?
2. Why did you choose this flower and this bird? Why would planting this plant in your space attract this species of birds? (word count requirement 150)
